

ML Infomap is a one-stop-shop for all GIS solutions, Systems Integration and geo-spatial databases: from Concept to Implementation.

MAP DATA SUPPLIER

- Develops digital vector map data of India that are GPS accurate and GIS ready
- Sources satellite images and special maps
- Creates 3D surface of terrain and infrastructure.

GEO-DATABASE SERVICES

Provides lifecycle support

- Updates and enriches existing geo-databases
- Migrates digital map properties and formats for use in different software.

CUSTOM SOFTWARE DEVELOPMENT

Apps for Cloud, Desktop & Mobile platforms

- Our Technology strengths are in modeling, cloud computing, database, data analytics, AI:ML processing satellite and drone images, Mixed Reality, full stack Web app development
- Our extensive Platform Experience includes AWS and Azure for cloud, and Android and iOS for mobiles
- Our System Integration capabilities include linking apps, platforms & technologies like GPS, images, database, SAP, video and other sensors
- Our IT/GIS solutions cover fleet management, management of healthcare and skills environment, digitizing, 3D visualization, pattern and change detection using AI:ML, Command Centres.

SECURE HOSTING SERVICES

- Web maps from our proprietary pan-India geo-database for multiple years
- Organizational data overlay and graphics
- Dashboard access to several services
- Privileged access to online analytics and reports

GEOGRAPHIC RESEARCH

- Map and Geospatial policy
- Historical mapping of India
- Curating map exhibitions
- Documenting geo-data and map collections.

through
Geographic Information**

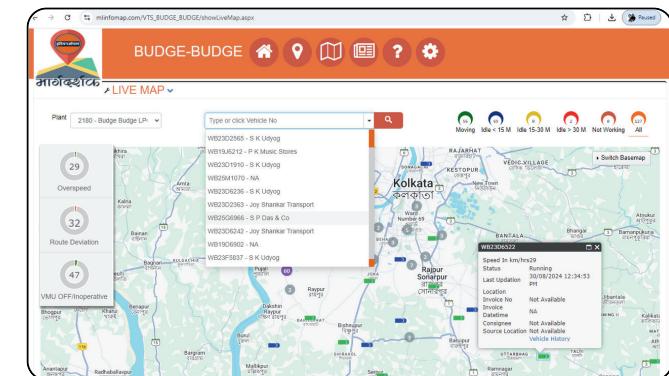

ML Infomap is an Information Technology company specialising in GIS solutions, maps, data and apps. It designs, develops, deploys and supports spatial solutions, using multiple technologies like Cloud and Mobile, AI Machine Learning, remotely sensed images, spatial analytics, IoT integration and 3D visualisation. It was established in 1993 by GIS expert Dr Manosi Lahiri.

It develops solutions for corporate and government sectors in ESRI ArcGIS and MERN stack. It creates high-quality vector maps, ensuring customers benefit from accurate geocoding, geofencing, linear referencing and routing. ML Infomap focuses on solutions for several verticals like fleet management, digital transformation, infrastructure, defence, agriculture, skilling and healthcare.

Recent projects undertaken by ML Infomap have used precision location and cloud-based GIS to develop enterprise solutions for transport infrastructure and fleet operations across India. Ongoing projects rely on AI:ML, modelling and prediction for a wide range of purposes, including terrain analysis and improving the skilling environment.

ML Infomap has GIS solutions for Command Centres, ensuring managers are aware of ground conditions virtually in real time, and enabling them to quickly respond to field situations. It offers digital mapping and GIS services to customers in India, USA, Europe, Japan and NZ.

The Company is CMMI 5, ISO 9001:2015, ISO 14001:2015 and ISO 27001:2013 certified. Its partners are Microsoft, AWS, ESRI and NSDC.
